# HRIA Theme

A short introduction to the HRIA theme

The **HRIA Theme** (used as `\usetheme{hria}`) is a modern theme for Beamer based on some exiting HRIA documents[1].

It comes with a few nifty features:

- Use of the HRIA colors consistent with other documents.
- Clean typography and spacing.
- Customized environments.

Separate parts are available as e.g. `\usecolortheme{hria}`!

# HRIA Theme: Colors and Fonts

This theme uses the *Adobe Source Sans Pro* font. This is a clean *sans serif* font from Adobe that is freely available.

The theme has three standard colors:

- A nice **light blue** (`HRIALightBlue`).
- A bolder **dark blue** (`HRIADarkBlue`).
- An attention grabbing **green** (`HRIAGreen`)!
- Variants `color!x` can also be used to darken or lighten them

These can be used for emphasizing text or for more obvious **alerts**. Standard **bold** and *italic* emphasis can of course also be used!

# HRIA Theme: Blocks

We have various standard Beamer blocks styled in a pleasing fashion.

**Block 1**
Some block block.

**Alert 1**
Some alert block.

**Example 1**
Some example block.

# HRIA Theme: Lists

**Itemize**

❯ Itemize lists are nicely customized …
- All the way down …
  - To the third level!

**Enumerate**

1. We can also enumerate!
2. Many things!
3. It's great!

**Description**

**HRIA** And describe the project in exquisite detail, so that we can capture all its multiline greatness!

# HRIA Theme: Animations

You can do a standard reveal with `[<+->]`.

- ❯ This is really important.
- ❯ Now this.
- ❯ And now this.

# HRIA Theme: Figures

A simple figure.

Largest cities in the world (source: UN 2018 population estimates from Wikipedia)

| City | Population |
| --- | --- |
| Tokyo | 37,468,000 |
| Delhi | 28,514,000 |
| Shanghai | 25,582,000 |
| São Paolo | 21,650,000 |
